

Exercise: Lecture – 8 & 9

- 9.1 Write a python program that takes a list of n numbers and find the maximum number among them. [*Take input using loop in a list first*]
- 9.2 Find the sum of all numbers in given list.
- 9.3 Count the odd, even numbers from a given list.
- 9.4 Write a python code that take a number from user input and find whether it is prime or not.
- 9.5 Find the number of prime number from a given user input list.
